

Floor Standing Ironing Centre

The floor standing board has a super lightweight, all metal mesh board and comes with a choice of either standard dry iron, dry iron with a safety cut-out motion switch or a steam iron with the same motion switch system.

The motion switch system ensures the iron cannot be left unattended for long periods

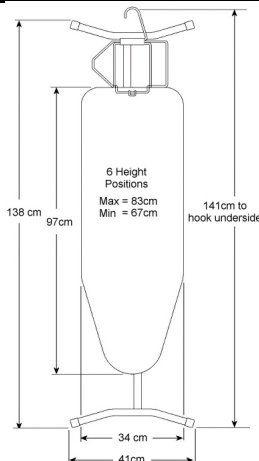

The boards can be adjusted to 6 different heights and an elastic strap retains the iron when not in use, so it can be stored away neatly. An iron retention kit is also supplied.
